Flax-Linen & Hemp

# CERTIFICATIONS OF ORIGIN AND TRACEABILITY FOR EUROPEAN FLAX-LINEN WITH STRENGTHENED STANDARDS

In a context of evolving regulations and increasing demands for transparency from both markets and consumers, **the Alliance and its collective are structurally strengthening the origin certifications for European Flax-Linen.** A dynamic that is reflected in the **evolution of the Masters of FLAX FIBRE™ and Masters of LINEN™ standards**, which implementation is gradual, since January 2026.

## MASTERS OF FLAX FIBRE™

CERTIFIED FLAX OF EUROPEAN ORIGIN, FROM FIELD TO FIBRE

The certification of origin and traceability of **European Flax™** fibre is evolving and has become **Masters of FLAX FIBRE™**. The standard remains the same. The name change is accompanied by **a new logo, a new baseline** *“Certified Flax of European origin, from field to fibre”* and a **reinforced commitment:** *“Masters of FLAX FIBRE™ certification ensures integrated crop management practices and highlights the unique expertise of European fibre producers. It provides European origin traceability from fibre to finished product, for all end markets.”*

This new promise is part of the development of the audited standard on good growing and scutching practices [first stage of processing] of European Flax. This work was developed collaboratively with all stakeholders in the sector.

## 8 KEY CLAIMS TO GUIDE BRANDS TO COMMUNICATE TO CONSUMERS

The aggregation of this new agricultural standard makes it possible to consolidate **eight key claims** that can be used and stated by brands in their communications to consumers, covering:

1

ORIGIN AND TRACEABILITY

2

TECHNICAL AND HUMAN EXPERTISE

3

REASONED AGRICULTURAL PRACTICES

4

PROMOTING BIODIVERSITY

5

SOCIAL RESPONSIBILITY

6

ENVIRONMENTAL IMPACT

7

100% MECHANICAL PROCESSING

8

TOTAL VALORISATION OF THE PLANT

All Masters of FLAX FIBRES™ detailed information and technical documents are available at:  
→ [allianceflaxlinenhemp.eu/en/technical-documents-download](https://allianceflaxlinenhemp.eu/en/technical-documents-download)

Contact: [certification@allianceflaxlinenhemp.eu](mailto:certification@allianceflaxlinenhemp.eu)

## MASTERS OF LINEN™

CERTIFIED LINEN OF EUROPEAN ORIGIN,  
FROM FLAX FIBRE TO YARN TO FABRIC

The name **Masters of LINEN™** - the Alliance's pioneering certification [1993]- remains unchanged, but the Alliance changed its logo, its **baseline** of “**Certified Linen of European origin, from Flax fibre to yarn to fabric**” and its **promise** “*The certification of distinction for European spinners, weavers and knitters with excellent Linen skills who are committed to prioritising European Linen sourcing. Masters of LINEN™ Flax-Linen guarantees that all stages of cultivation and processing are carried out by European companies, from Masters of FLAX FIBRE™ to yarn and fabric.*”

With this new commitment, **Masters of LINEN™** is now guided by broad principles that represent the core values of the standard.

## A REFERENCE FOCUSING ON THE COMPANY AND THE PRODUCT

To support this new commitment, and as part of an approach designed to meet all the challenges of sustainable business transformation, as well as European innovation and creativity, the Alliance and a working group of expert spinners and weavers have collectively developed a new set of standards covering both the company and the product, audited by independent third-party bodies.

**Company eligibility is based on geography and expertise, to support the European Flax-Linen ecosystem.**

### TRACEABILITY:

- The certification adopts the chain of custody principle: all stages of a product's value chain must be certified as Masters of LINEN™, Masters of LINEN™ Chain of Custody, or Masters of FLAX FIBRE™, depending on the stage.
- Subcontractors and multiple sites are taken into account.
- The possible adoption of digital traceability further strengthens the transparency and traceability of the certification.

### EUROPEAN EXCELLENCE AND EXPERTISE:

- Masters of LINEN™ also guarantees that all processing stages, from the field to the finished fabric, are carried out by European companies.
- Their linen expertise is demonstrated by specific criteria: number of years of existence and practice in the sector, specific skills in processing.
- Masters of LINEN™ contributes to supporting and ensuring consistency in the sector by prioritising European sourcing: spinners must source 70% of their fibres certified as Masters of FLAX FIBRE™; fancy spinners, weavers and knitters must source 55% of their yarns as Masters of LINEN™-certified yarns.

**All Masters of LINEN™ detailed information and technical documents are available at:**  
→ [allianceflaxlinenhemp.eu/en/technical-documents-download](https://allianceflaxlinenhemp.eu/en/technical-documents-download)

**Contact:** [certification@allianceflaxlinenhemp.eu](mailto:certification@allianceflaxlinenhemp.eu)

# DIGITAL TRACEABILITY: AN OPTIONAL SOLUTION FOR BRANDS

As part of the evolution of its **Masters of FLAX FIBRE™** and **Masters of LINEN™** certifications, **the Alliance for European Flax-Linen & Hemp is partnering with TextileGenesis™**, a pioneering textile traceability platform and a subsidiary of the Lectra Group, to roll out **the Flax-Linen Traceability Platform – European Certified Fibres to finished products**.

**The digital traceability platform is a complementary and optional solution, separate from the standard framework of audited certifications:** it is intended for brands that want a higher level of control, proof and compliance.

In an ever-changing textile market, **traceability has become a strategic lever for industrials**. Brands, consumers and regulators all expect greater transparency and compliance.

In a geographically fragmented textile industry, understanding and managing the entire value chain is a major challenge for improving eco-design, complying with regulations and meeting growing demands for transparency. **It is now essential to have a dedicated traceability tool.**

**FLAX-LINEN TRACEABILITY PLATFORM**  
*European Certified Fibres to finished products*  
by TextileGenesis™ - Lectra

## THE FLAX-LINEN TRACEABILITY PLATFORM BY TEXTILEGENESIS™ – LECTRA GROUP

**Thanks to the secure SaaS cloud technology, the Flax-Linen Traceability Platform - European Certified Fibres to Retail enables the tracking of all certified flows across the entire value chain, from fibre-origin to finished products. Every step is mapped, independently verified, and recorded as digital tokens (Fibercoins™), guaranteeing the European origin of fibres and the integrity of certified volumes, while preventing any risk of double counting.**

## TANGIBLE BENEFITS FOR BRANDS

**The digital traceability platform is a tool propose to brands, allows to visualise and document the origin of their products, track environmental impacts, and enhance the credibility of their sustainability commitments.** As a strategic tool, this digital traceability **ensures the provenance and compliance of European fibres, supports eco-design initiatives, and ultimately strengthens consumer's trust.**

All detailed information and technical documents are available at:

# THE EUROPEAN FLAX-LINEN ENVIRONMENTAL FOOTPRINT GUIDE: REFERENCE DATA, PEF ALIGNMENT & CALCULATION TOOLS

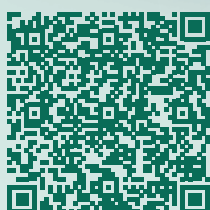

The **European Flax-Linen Environmental Footprint Guide** [publication March 2026] provides a **clear framework to understand Life Cycle Assessment [LCA]**, the European PEF [Product Environmental Footprint] methodology and **the certified data available for Masters of FLAX FIBRE™**.

Developed through co-construction with industry stakeholders, it makes **European-average impact data accessible for certified fibres and key Flax processing stages**, in alignment with the PEF framework and major reference databases [European Commission EF database, Higg MSI, ecoinvent].

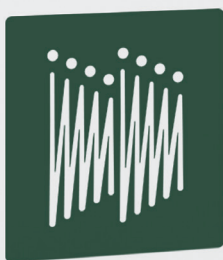

**The Guide is part of a structured roadmap** designed to:

- Improve the reliability and comparability of **environmental measurements**
- Equip brands and manufacturers with **robust, representative data**
- Support **regulatory alignment and market access**

**This initiative reinforces the environmental credibility of certified European Flax-Linen** and supports informed, harmonised deployment across textile and technical markets.

Please visit the Alliance's website to view and download the European Flax Environmental Footprint Guide.

Masters of  
**FLAX  
FIBRE**<sup>™</sup>

CERTIFIED FLAX OF EUROPEAN ORIGIN,  
FROM FIELD TO FIBRE.

Masters of  
**LINEN**<sup>™</sup>

CERTIFIED LINEN OF EUROPEAN ORIGIN,  
FROM FLAX FIBRE TO YARN TO FABRIC.

# THE ALLIANCE'S EXPERTISE FOR ALL CERTIFIED COMPANIES AND BRANDS USING CERTIFICATIONS

**The Alliance for European Flax-Linen & Hemp** exclusively lends its expertise to all companies and brands certified as **Masters of FLAX FIBRE™** and/or **Masters of LINEN™**.

The Alliance works with certified stakeholders to **raise the international visibility of European Flax-Linen**. Drawing on its expertise in CSR, marketing, economics and knowledge of the value chain, certified stakeholders benefit from a structured framework of support designed to enhance the value of their products and strengthen their reputations.

The services offered are organised around several **key areas**:

## CSR

CERTIFICATIONS  
TRACEABILITY  
SOURCING  
ENVIRONMENTAL FOOTPRINT

## FLAX-LINEN & HEMP TEX AND TECH

### INNOVATION

TECHNICAL STUDIES  
PUBLICATIONS  
TEXTILE, FUNCTIONAL  
AND TECHNICAL PROPERTIES

## FLAX-LINEN & HEMP ECONOMIC OBSERVATORY

### ECONOMIC INFORMATION

FLAX-LINEN AND HEMP

# About

## Alliance for European Flax-Linen & Hemp

The Alliance for European Flax-Linen & Hemp is the only European agro-industrial organization that serves as a global reference and brings together all players in the European Flax-Linen and Hemp value chain.

The Alliance for European Flax-Linen & Hemp has a three-fold mission of informing members, brands, and consumers, supporting the European ecosystem and European expertise, and promoting European Flax-Linen and Hemp as the preferred sustainable fibres worldwide. It connects 10,000 businesses in 16 European countries and bases its work on the values of solidarity, innovation, scientific validation, and respect for people and planet.

It strives to increase the international visibility of European Flax-Linen and Hemp, whose technical and environmental properties inspire global creation and open up new opportunities for industrial innovation. It guarantees the traceability of Flax fibre thanks to the Masters of FLAX FIBRE™ (ex-European Flax™) and Masters of LINEN™ certifications.

*The Alliance for European Flax-Linen & Hemp is the new name of the CELC, an association founded in 1951. Western Europe is the number one Flax-producing region in the world (France, Belgium, and the Netherlands account for 3/4 of production).*
