

How to become Masters of FLAX FIBRE™ certified

Step 1 — Determine the kind of organization you are in the chain of custody

For definition of organization type, see Masters of FLAX FIBRE™ Standard downloadable at allianceflaxlinenhemp.eu

How to become Masters of FLAX FIBRE™ certified

Step 2 – See how to become certified depending on your organization type

- 1. See contact details at allianceflaxlinenhemp.eu
 - 2. Apply from the «**Become Certified**» button on our website. Application page in Chinese [here](#).
 - 3. For sites involved exclusively in trading, documentary audits only.
For sites involved in trading and processing activities that are exclusively subcontracted, contracting organisation is audited off-site only, while the processing subcontractors are subject to on-site audits by Bureau Veritas depending on their risk levels.
For sites involved both in trading AND in processing activities [in-house](#), refer to the certification process of a Processor.
 - 4. Composition tests are mandatory for processors involved in an activity of spinning, weaving, knitting, production of technical semi-products, preparation to spinning, cottonizing, or any activity with a high risk of fibre blending, either internal or outsourced
- All reference documents are available on our allianceflaxlinenhemp.eu
